## **NALPN Student Honor Society Achievement Award for PN Students**

The National Association of Licensed Practical Nurses, Inc., offers a recognition program for practical and vocational nursing students who achieve a minimum 3.0 or B average in their course work with program faculty recommendation. Student membership in the NALPN is required in order for students to receive this award.

Recipients receive a special certificate of achievement and an attractive lapel pin. Additionally, participating schools and recipients are listed on our website.

In addition to recognizing the students who achieve this level, Practical Nurse Educators may also receive a certificate of recognition upon faculty request and her/his name will be listed in the NALPN publication and website along with the students name, school, city/state.

### **Requests for Recognition Guidelines:**

Schools wishing to participate in the "Honor Society" Recognition program may forward requests to NALPN via mail, fax, or email. Please indicate membership number if available so status can be verified. Requests should be on Facility letterhead or from faculty email accounts, indicate the School, Program description, Date of graduation or completion, student name as to be listed on the certificate and member number. Schools wishing to recognize PN educators should include the name and credentials for those individuals as well.

Students who are not current members must become members at time of request. Payment of \$25 per student for membership must be received with request either paid for by the school or the student. You may submit membership inquiry prior to formal request for recognition if needed. Please allow at least 2 weeks prior to the graduation ceremony for processing and mailing. You may then present their award during graduation or other appropriate time of your choice.

As you are aware, membership in the professional association representing your chosen profession is a great value and an excellent way to continue to keep informed about nursing information and health care issues. Thank you for encouraging your students to become involved by belonging to their professional association! Schools that promote NALPN would also benefit from our Affiliate membership to stay well informed.

Please take a moment to share this information with your PN students, and call our national office at (800) 948-2511 or e-mail [nalpn@caphill.com](mailto:nalpn@caphill.com) with questions.
